

■ MULTIPLICATION BINGO!

A fun, hands-on game for practising the 2, 3, 5 & 10 times tables

■ PLAY • THINK • MATCH • WIN! ■

Includes:

- 4 different Bingo cards
- 36 multiplication calling cards
- Easy-to-follow teacher/parent instructions
- Answer key for the calling cards

Suggested age: 6–8 years

Print on A4 • Laminate the cards for repeated use • Use counters, buttons or small toys as markers

HOW TO PLAY

1. Give each player one Bingo card and some markers.
2. Cut out the calling cards. Shuffle them and place them face down.
3. Pick one calling card and read the multiplication question aloud.
4. Players solve the multiplication problem. If the answer appears on their card, they cover it.
5. The first player to complete a row, column or diagonal calls out **"BINGO!"**
6. Check the covered answers against the calling cards before celebrating the winner.

Teacher/Parent Tip

Encourage children to explain how they found the answer. For example, for 3×4 they might think "4 + 4 + 4" or count in 4s. The goal is to build understanding and fluency together.

Tables included

2s • 3s • 5s • 10s

■ Optional challenge: Ask children to make their own multiplication question using an answer on their card.
